# Anti-rabbit IgG, HRP-linked Antibody

Catalog: OM296295

☐ 100ug

## Product profile

|                     |  |
|---------------------|--|
| Product name        | Anti-rabbit IgG, HRP-linked Antibody   |
| Antibody Type       | Secondary Antibodies   |
| Product description | Designed for use with rabbit polyclonal and monoclonal antibodies, this affinity purified goat anti-rabbit IgG (heavy and light chain) antibody is conjugated to horseradish peroxidase(HRP) for chemiluminescent detection. |

## Key Feature

|                     |                           |
|---------------------|---------------------------|
| Clonality           | Monoclonal                |
| Isotype             | Cocktail                  |
| Host Species        | Goat                      |
| Tested Applications | ChIP ,FC ,IF ,IHC ,IP ,WB |
| Species Reactivity  | Rabbit                    |
| Concentration       | 1 mg/ml                   |
| Purification        | Affinity purified         |

## Application

### Application

After the primary antibody is bound to the target protein, a complex with HRP-linked secondary antibody is formed. The LumiGLO ® is added and emits light during enzyme catalyzed decomposition.

Application Notes

WB:1:5000~1:10000

Additional Information

|                      |  |
|----------------------|--|
| Form                 | Liquid   |
| Storage Instructions | Storage: Supplied in 136 mM NaCl, 2.6 mM KCl, 12 mM sodium phosphate (pH 7.4) dibasic, 2 mg/ml BSA, and 50% glycerol. Store at –20°C. Do not aliquot the antibodies. |
| Storage Buffer       | phosphate buffered saline , pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.   |
| Note                 | The product is for research use only,not for use in diagnostic or therapeutic procedures.  |
