# Bio-Pure Human Serum Albumin (HSA), 10% solution

Catalog: OM296331

☐ 10 mL ☐ 100 mL

## Product profile

Product name	Bio-Pure Human Serum Albumin (HSA), 10% solution
Product description	<p><b>Product Overview</b> Bio-Pure Human Serum Albumin is a xeno-free supplement, specially qualified for the growth and expansion of undifferentiated pluripotent human embryonic stem (hES) cells and induced pluripotent stem (hiPS) cells, in both feeder-dependent and feeder-free conditions. Human Serum Albumin (HSA) is a medium supplement that is a highly soluble osmolytic protein with a high molecular weight. HSA is effective in maintaining hES cell health, expansion and growth. It is particularly valuable in maintaining cell membrane stability. HSA is useful both for binding anionic, cationic and neutral molecules, as well as its ability to sequester and stabilize a wide array of ions and other small molecules.</p>

## Additional Information

Form	Liquid
Storage Instructions	2 to 8°C
Note	The product is for research use only, not for use in diagnostic or therapeutic procedures.
