# Fetal Bovine Serum (FBS), US Origin

Catalog: OM296346

☐ 500 mL

## Product profile

Product name	Fetal Bovine Serum (FBS), US Origin
Product description	<p>Product OverviewFetal Bovine Serum (FBS) is the most widely used growth supplement for cell culture media due to its high content of embryonic growth-promoting factors. Biological Industries' FBS reagents undergo the most stringent quality control screening and validation standards to ensure high quality and consistent batches with minimal variability. All of BI's FBS reagents meet and exceed approved compliance validation specifications. All sera undergo a methodical and comprehensive list of physicochemical, microbiological, and biological performance testing procedures. Each batch of FBS is fully documented and traceable from the source of origin to final filtration. Getting ready to test? Order a Serum Sample</p>

## Key Feature

Isotype	Cocktail
Host Species	Alligator
Purification	Affinity purified

## Additional Information

Storage Instructions	-20°C
Note	The product is for research use only, not for use in diagnostic or therapeutic procedures.
