Fetal Bovine Serum (FBS), US Origin, Dialyzed

Catalog: OM296334

☐ 500 mL

Product profile

Product name	Fetal Bovine Serum (FBS), US Origin, Dialyzed
Product description	Most cells grown in culture require a serum component of the growth medium to maintain their proliferative capacity. While whole serum is permissible for routine purposes, studies involving nutritional parameters or incorporation of labeled material require that the constituent under study be removed from the serum. The most commonly used method for removal of these constituents is dialysis of whole serum.

Key Feature

Isotype	Cocktail
Host Species	Alligator
Purification	Affinity purified

Additional Information

Storage Instructions	-20°C
Note	The product is for research use only, not for use in diagnostic or therapeutic procedures.
