GFP Antibody

Catalog: OM233970

☐ 100ug

Product profile

Product name	GFP Antibody
Antibody Type	Tags Antibodies

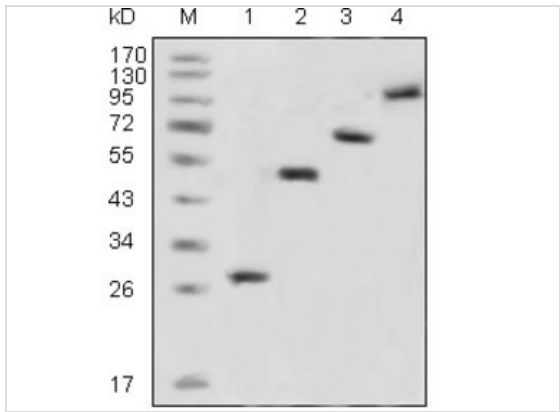

Key Feature

Clonality	Monoclonal
Isotype	IgG2a
Clone Number	4B10B2
Host Species	Mouse
Tested Applications	WB
Species Reactivity	Human
Concentration	1 mg/ml
Purification	

Target Information

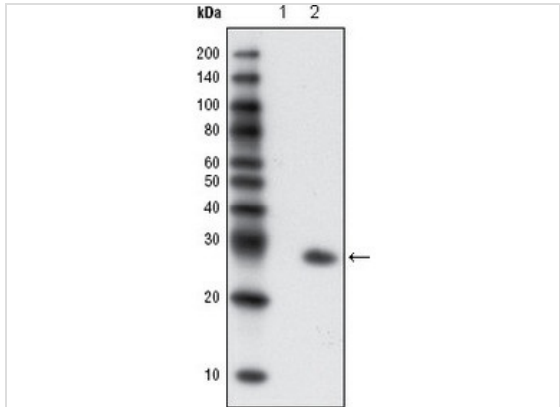

Tissue Specificity	Purified recombinant fragment of GFP expressed in E. Coli.
--------------------	------------------------------------------------------------

Application

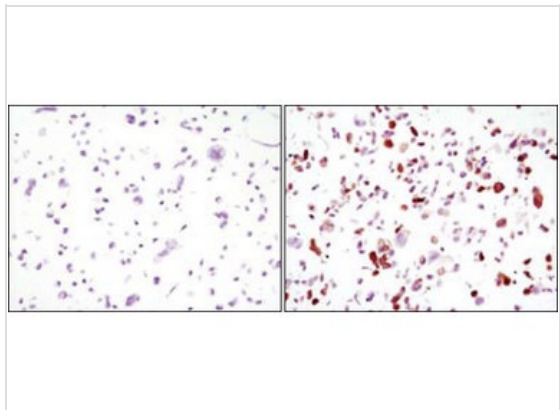

Application

Figure 1: Western blot analysis using anti-GFP monoclonal antibody against recombinant GFP fusion protein(1) and various recombinant fusion protein with GFP tag(2, 3, 4).

Application

Figure 2: Western blot analysis using anti-GFP monoclonal antibody against extracts from HCC827 cells, untransfected(1) and transfected with GFP(2).

Application

Figure 3: Immunocytochemistry analysis of HCC827 cells, untransfected(left) or transfected with GFP(right) using anti-GFP monoclonal antibody.

Application Notes

WB~~1:500 - 2000.:

Additional Information

Form	Liquid
Storage Instructions	For short-term storage, store at 4° C. For long-term storage, aliquot and store at -20°C or below. Avoid multiple freeze-thaw cycles.
Storage Buffer	Purified recombinant fragment of GFP expressed in E. Coli.
Note	The product is for research use only,not for use in diagnostic or therapeutic procedures.
