NDUFB4 Antibody (C-term)

Catalog: OM215141

☐ 100ug

Product profile

Product name	NDUFB4 Antibody (C-term)
Antibody Type	Primary Antibodies

Key Feature

Clonality	Polyclonal
Isotype	Ig
Host Species	Rabbit
Tested Applications	WB ,IHC ,FC
Species Reactivity	Human
Concentration	1 mg/ml
Purification	

Target Information

Alternative Names	NDUFB4; NADH dehydrogenase [ubiquinone] 1 beta subcomplex subunit 4; Complex I-B15; NADH-ubiquinone oxidoreductase B15 subunit
Molecular Weight(MW)	15209 Da
Function	Accessory subunit of the mitochondrial membrane respiratory chain NADH dehydrogenase (Complex I), that is believed not to be involved in catalysis. Complex I functions in the transfer of electrons from NADH to the respiratory chain. The immediate electron acceptor for the enzyme is believed to be ubiquinone
Tissue Specificity	This NDUFB4 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 97~127 amino acids from the C-terminal region of human NDUFB4.
Cellular Localization	Mitochondrion inner membrane; Single-pass membrane protein; Matrix side

Application

Application
Western blot analysis of NDUFB4 Antibody (C-term) in mouse kidney tissue lysates (35ug/lane). NDUFB4 (arrow) was detected using the purified Pab.

Application
Formalin-fixed and paraffin-embedded human brain tissue with NDUFB4 Antibody (C-term), which was peroxidase-conjugated to the secondary antibody, followed by DAB staining. This data demonstrates the use of this antibody for immunohistochemistry; clinical relevance has not been evaluated.

Application
Flow cytometric analysis of 293 cells using NDUFB4 Antibody (C-term)(bottom histogram) compared to a negative control cell (top histogram). FITC-conjugated goat-anti-rabbit secondary antibodies were used for the analysis.

Application Notes **WB~~1:100~500 IHC~~1:50~100 FC~~1:10~50:**

Additional Information

Form	Liquid
Storage Instructions	For short-term storage, store at 4° C. For long-term storage, aliquot and store at -20°C or below. Avoid multiple freeze-thaw cycles.
Storage Buffer	Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.
Note	The product is for research use only,not for use in diagnostic or therapeutic procedures.
