#### **Product profile**

Product name YEATS4 Antibody

Antibody Type Primary Antibodies

Product description YEATS4 is found in the nucleoli. It has high sequence homology to human MLLT1, and yeast and human

MLLT3 proteins. Both MLLT1 and MLLT3 proteins belong to a class of transcription factors, indicating tha t the encoded protein might also represent a transcription factor. This protein is thought to be required f or RNA transcription. This gene has been shown to be amplified in tumors.1) Zimmermann, K., et al., (2002)
