LAG-3 Antibody (preservative free)

Catalog: OM283197

☐ 50ul ☐ 100ul

Product profile

Product name	LAG-3 Antibody (preservative free)
Antibody Type	Primary Antibodies
Product description	Lymphocyte activation gene 3 (LAG-3; CD223) plays an important role in negatively regulating T cell proliferation, function and homeostasis. It is required for maximal natural and induced regulatory T cell (Treg) function. LAG-3 is closely related to the T cell co-receptor CD4 and binds to MHC class II molecules but with a significantly higher affinity than CD4.
Immunogen	Synthetic peptide corresponding to 30 aa in the N-terminus of human LAG-3.

Key Feature

Clonality	Monoclonal
Isotype	IgG1
Host Species	Mouse
Tested Application	Functional Studies ICC IHC IP WB
Optimal conditions must be determined individually for each application.:	
Species Reactivity	Human
Concentration	1mg/ml
Purification	Affinity purified

Target Information

Gene Symbol	LAG3
Alternative Names	Lymphocyte Activation Gene-3 FDC Protein CD223
Tissue Specificity	Recognizes human LAG-3.

Database Links

Entrez Gene	3902
Protein Accession	P18627

Application

Application Notes	Optimal conditions must be determined individually for each application.:
-------------------	---

Additional Information

Form	Liquid
Storage Instructions	Stable for at least 1 year after receipt when stored at -20°C.
Storage Buffer	Liquid. In PBS containing 10% glycerol. Preservative free formulation.
